#### Report of the trustees

#### For the year ended 31 March 2022

Reference and administrative information set out on pages 1 and 2 forms part of this report. The financial statements comply with current statutory requirements, the Memorandum and Articles of Association and the Statement of Recommended Practice - Accounting and Reporting by Charities (effective from January 2019).

We have referred to the notes contained in the Charity Commission's general guidance on public benefit reporting when reviewing our objects and aims and in planning for future activities. The Trustees have considered how future plans included in the business plans and future strategies will help to achieve these objects and aims.

## Introduction from our Chair

I am delighted to have served as Chair of Gloucestershire Wildlife Trust during this period of rebuilding of the organisation after the challenges of COVID-19. Our work is vital. There has never been so much demand for the energy and expertise of our staff and volunteers as we find new ways to tackle the devastating declines in wildlife in Gloucestershire and beyond, and the harmful effects of climate change.

Once again, on behalf of the Board, a big thanks to our members and supporters who have stayed with us over a really tricky second year of pandemic. Our dedicated, passionate and skilled staff and volunteers have been the powerhouse behind much of the work we do. I also thank my fellow Trustees who, as critical friends, have worked hard with staff to minimise the disruptive effects of COVID-19 and offer counsel on strategic matters.

Very little has been achieved in this year that has not been bolstered, enabled or supported by working in partnership with others. We remain particularly grateful to Grundon Waste Management which has supported so many of our projects through the Landfill Communities Fund. This year we celebrated 25 years of our partnership with Grundon and over £3 million invested for Gloucestershire's wildlife.

This report celebrates our achievements over the year. Amongst the highlights we can report: Releasing a second tranche of pine martens in the Forest of Dean - they are now spreading over the county and breeding; connecting up at the landscape scale in two Nature Recovery Zones (the Golden Valley - including the acquisition of Blackness Banks, and the Severn Hams); a big take up of our Habimap citizen science programme; the extension of the ERDF Wild Towns project; and the completion of two large partnership projects, Our Bright Future and Foresters' Forest.

This decade is a critical one for Gloucestershire's wildlife. We are running out of time to halt and reverse declines in species and habitats, and adapt to the changing climate. In response, we need to think and do long-term and large-scale. This is why we now have our first long-term Strategy which will run from April 2022 to March 2030. It has three over-arching themes: stopping and reversing wildlife declines; more people taking action for nature; and normalising natural solutions to climate change. The Strategy will be underpinned by a Delivery Plan which describes our ambitions for a rolling three-year period. You are assured that the Board is taking a keen interest in the delivery of the Strategy, and how it dovetails with the goals of the wider Wildlife Trusts' Strategy and those set out in the Government's Environment Act.

David Bullock, Chair

#### Report of the trustees

#### For the year ended 31 March 2022

## Objectives and activities

Gloucestershire Wildlife Trust's charitable objects (summarised) are to:

- record and study places and objects of natural interest, and to protect them;
- establish, maintain and manage nature reserves;
- encourage the preservation of species;
- encourage study and research in the natural sciences;
- advance the education of the public in sustainable development and biodiversity conservation; and
- advance the education of the public in recycling and waste management and to promote sustainable practices.

We have rearticulated our purpose and vision this year as part of our work on shaping our strategy to 2030.

Our purpose is to ensure nature's recovery, together with the people of Gloucestershire.

Our vision is for a natural world in recovery, where nature-based solutions are tackling the climate crisis and people are taking action for wildlife.

The Trust's work in this year was guided by a Strategic Plan and 2021/22 was the final year covered by the 2017-2022 Strategic Plan. In 2019/20 we conducted a mid-term review to confirm that the Strategic Plan was still fit for purpose. This resulted in a series of adjustments to the five-year objectives. In 2021/22 we produced our new Strategy which will take us from April 2022 through to 2030.

#### Our plans for 2021/22

Each year the Trust annually produces a detailed Business Plan which determines the activities to be carried out during the year. Results are monitored throughout the year with quarterly performance reports being produced for the Board and examined in more detail by committees and advisory groups of the Board.

The main ambitions for this year were:

#### Wildlife and wild places

- Informed by an estate review, we will move towards a bigger, better and more connected approach to our land management activities by developing a 20-year plan for 10 priority landscapes where we partner with other landowners. By 2022 we will manage 10% more land for wildlife by transitioning our estate towards a smaller number of larger nature reserves within these priority landscapes;
- We will improve the condition of the land we manage with 75% of nature reserves meeting targets for priority habitat quantity and quality. Our nature reserves will be more resilient with 10% of sites better connected to the Nature Recovery Network. We will establish a breeding pine marten population in the Forest of Dean; and
- We will improve urban wildlife by creating Wild Towns. These towns will have a network of wild spaces for people and wildlife. 50 hectares of urban wildlife habitat will be created or enhanced, and 5,000 people will be engaged.

## Report of the trustees

#### For the year ended 31 March 2022

#### Your wildlife: inspiring communities

- Our learning programme will help young people to appreciate and take action for nature. 30,000
  young people will be helped to experience wildlife through formal and informal outdoor learning
  provision, both at our sites and in school settings;
- By 2022 we will have achieved 45,000 active volunteer hours annually. This will be achieved via the delivery of our new volunteer strategy which will ensure that volunteers are involved in everything that we do, tackling barriers and challenges to volunteering; and
- We will establish campaigns to inspire people to act themselves. We will develop a suite of actions that are credible and authentic, genuinely worthwhile and with impact for nature and wildlife, based on evidence.

## Natural solutions

- We will continue to expand Building with Nature recognising a new separation between the subsidiary and the work done by the charity to promote the standards. By 2022 two further developments will have achieved the benchmark, creating net gains for wildlife, working with nature to reduce the risk of flooding, and providing better quality places to live;
- Participants in our community programmes will have better access to, understanding and appreciation of nature as well as having improved health and wellbeing. Of participants, 80% will have improved access to nature and 60% will have increased appreciation of nature;
- Gloucestershire has embarked on a number of transport, employment and infrastructure projects. We will negotiate with key decision makers as early as we can to make sure schemes consider impact on the environment from the start and secure biodiversity net gain. We will talk to all key politicians to make sure that Gloucestershire's wildlife is protected and enhanced; ensuring schemes provide the best deal for wildlife; and
- We will proactively build our relationships with farmers, landowners and key estates in the county. We will invest in developing our offer to farmers and landowners and develop a new model for GWT environmental farm advice with an economic model to sustain it.

## Extending our reach

- We will increase the number of active supporters of our work from a baseline of 40,800 in 2019 to 42,500 by 2022, improving the experience for visitors to our wild places, especially around our Gateway Sites and visitor centres. We will transform our relationships with members and supporters with more personalised communications;
- We will rationalise our subsidiary companies and improve their returns to the charity. We will develop individual giving (non-membership support) in new sources, channels and methods of giving;
- We want to develop and manage our people, buildings and resources to support delivery of our plans. We need to invest in the training and development of our staff and volunteers to ensure an engaged and productive workforce; and
- We will develop a sustainability policy to give our supporters, staff, volunteers, and suppliers an
  overview of our on-going commitment to protecting and enhancing the natural world. Our policy
  will be applied to all aspects of our operations; offices, estate management, project delivery,
  cafes and visitor centres.

## Achievements and performance in 2021/22

2021/22 has been a busy year for the Trust. Good progress has been made against the four work areas described in the 2017-22 Strategic Plan: Wildlife and Wild Places, Your Wildlife: Inspiring Communities, Natural Solutions, and Extending Our Reach.

#### Report of the trustees

#### For the year ended 31 March 2022

The Trust spent £4,369,937 during the financial year of which 72% was spent supporting wildlife and wild places. 12% was spent on fundraising activities and 15% related to the costs in the trading subsidiaries that provide ecological consultancy, cafés and visitor facilities at three Gateway Sites in Gloucestershire.

It was good to see so many volunteers return to the Trust in this year, despite ongoing COVID restrictions. Volunteers provided 39,473 hours of activity for a total value of £528,726. Volunteer numbers continue to rebuild post pandemic.

#### Wildlife and wild places

## Delivering nature's recovery at scale

Nature Recovery Zones (NRZs) are an ambitious, landscape-scale approach to connect wildlife, drive nature's recovery, and support wildlife to adapt to climate change. This year we focussed efforts and made considerable progress in two NRZs (the Golden Valley and the Severn Hams).

Projects in the Golden Valley included Communities for Insects (habitat enhancements to increase the resilience of threatened insect populations), Boost for Bats (improving woodlands and neighbouring grasslands across our reserves in the Stroud Valleys for several bat species) and Rebuilding Landscapes for Nature's Recovery (habitat enhancements and surveys for several species including large blue and marsh fritillary butterflies).

Work in the Severn Hams NRZ has concentrated on restoration of priority wetland habitat in the Severn Vale, work on a landscape-scale Conservation Management Plan, signage and recruitment of volunteers.

#### Project Pine Marten

The long-running pine marten project has continued with the highlight this year taking place in late summer when 17 pine marten were transported from Scotland and placed in specially constructed holding pens in the Forest of Dean to acclimatise. They were then successfully released and their movements have been monitored via radio tracking collars.

In addition to the release itself, the team has been busy with a series of online talks together with training and support for the volunteers on setting camera traps and carrying out scat and den site surveys.

#### End of Foresters' Forest

This year saw the end of the Foresters' Forest, a National Lottery Heritage Fund Landscape Partnership programme, formed from an association of partner organisations and local community groups within the Forest of Dean and led by Forestry England.

GWT's involvement has included: providing activities for 4- to 13-year-olds via Forest Explorers; supporting the Dean Meadows Group to undertake surveys and provide management advice to the owners of wildflower meadows; and a significant conservation grazing project focused on creating areas of open habitat, especially heathland, and maintaining it through grazing.

#### Report of the trustees

#### For the year ended 31 March 2022

#### Reserve condition monitoring

Using a standardised approach and supported by a group of volunteers, we have completed condition monitoring at 11 nature reserves and have prepared the programme for the 2022 season. This process involves field work, analysis of data and report writing and provides our ecological evidence base. The results will inform future works at these reserves.

## Your wildlife: inspiring communities

#### Rebuilding the volunteer programme

We have worked hard to rebuild our volunteer programme following the pauses caused by the COVID pandemic during which time the number of active volunteers decreased. We now have 580 active volunteers. The diversity of our programme has increased both in terms of demographics and tasks undertaken by volunteers.

One of the big successes this year has been with the recruitment of volunteers to the Habimap programme. Habimap is a rolling citizen science programme to carry out detailed surveys of all habitats across Gloucestershire every 10 years. We had to cap the numbers of new volunteers after 200 individuals had expressed an interest.

#### Community empowerment toolkit

We have been working with local communities who are passionate about helping wildlife to thrive in their local area. In partnership with one of these communities, at Ashleworth, we have created a community empowerment toolkit.

This toolkit is intended to give wildlife-friendly communities the power, platform and connections (and if needed the know-how) to make a difference. It includes advice on bird boxes, wildflower meadows, hedgehog highways, engaging with the public, training and finding funding.

#### My Wild Adventure

We completed the My Wild Adventure project at Robinswood Hill. This included an accessible pathway taking in woodland and meadow areas, a new trail made up of 10 specially commissioned sculptures and new interpretation pieces to help visitors find and enjoy the sculpture trail.

#### Our Bright Future

We completed Our Bright Future, a six-year project working with young people to help them value and benefit from an awareness of local wildlife and a connection to nature and to gain valuable skills and experience. We worked in partnership with Avon Wildlife Trust and in total, the project worked with 3,671 young people. Of these, 75% were aged 11 to 14 and 25% 15 to 24. 1,236 AQA certifications were awarded via the project. During the six-year period, several greenspaces were improved for people and wildlife.

#### Report of the trustees

#### For the year ended 31 March 2022

#### Natural solutions

#### Gloucester Rainscapes

The Gloucester Rainscapes project was completed. The project concentrated on improving water quality and reducing flood risk in Gloucester focusing on the Barton and Kingsholm areas. It provided demonstrator rain gardens and planters in key community locations, constructed with local volunteers to prevent rain water from reaching rivers and drainage systems too quickly. Interpretation boards and leaflets were produced in different languages to raise awareness. It also included a 'yellow fish' campaign, painting surface water drains with the yellow fish symbol to help to raise awareness of pollutants entering the waterbodies.

## Health and Wellbeing

We have continued our Health and Wellbeing programme, 'a Natural Health Service'. This has included Nature on Prescription (a series of outdoor nature walks for cardiac rehabilitation patients), Nature Nurtures (a pilot project to demonstrate the impact of the natural world on young people's mental wellbeing) and Carers in Nature (walks and online sessions for carers).

## Commitment to Building with Nature in Local Plans and strategic developments

Building with Nature sets standards for high quality green infrastructure. Local authorities are using Building with Nature to create and accredit good policy and guidance. Developers are using Building with Nature to create better places for people and wildlife. This year two strategic allocations have committed to Building with Nature in Local Plans and discussions are underway with a third.

#### Severn Wildbelt

The concept of a 'Wildbelt' has been promoted by the Wildlife Trusts with Government support as a new designation to support nature's recovery. We have been exploring what the concept of a Wildbelt at scale might look like working with the other Wildlife Trusts along the River Severn from the estuary to the source. The Wildbelt will provide a shared evidence-based framework for an ambitious ecological corridor that delivers wide reaching benefits for people and for nature across a broad area stretching from Bristol to Birmingham.

## Extending our reach

#### Engagement with young people

We have increased our engagement with young people through specific initiatives. Wild Trainees is a vocational training and work-based learning scheme dedicated to providing hands-on practical land management skills for 18- to 25-year-olds. Our learning programme has engaged with more than 5,000 young people face-to-face and nearly 6,000 online. The Youth Advisory Group is helping to shape the future of the organisation, providing advice and challenge to the Board of Trustees and the Executive.

#### Wilder Glos Platform

We launched our Wilder Glos digital platform. This provides resources and training to enable individuals and organisations to take action for nature and wildlife. During the year, 1,850 people took action and 5,296 individual actions were taken including planting nectar rich plants, using less plastic and putting bird boxes up.

#### Report of the trustees

#### For the year ended 31 March 2022

## Other

## Carbon

We did a second year of measurements and reduced our carbon footprint by more than 10%. We invested in cleaning and servicing our solar panels at Greystones Farm and Crickley Hill and installed LED lighting at sites which did not previously have this.

# Celebration of our 60<sup>th</sup> anniversary

Throughout the year we celebrated 60 years of the Gloucestershire Wildlife Trust culminating with the AGM in November.

## Consultation and creation of the new Strategy

We have worked hard on the crafting of a new Strategy to take us to 2030. This has included consultation with staff, volunteers, members and other stakeholders.

## **Financial review**

The Trust's total income to 31 March 2022 increased by 2% to £4,871,057 (2021 £4,793,014) due mainly to the successful performance of the ecology consulting and visitor services businesses operated by the Trust's subsidiary, which were able to continue operations throughout the pandemic lockdowns.

Expenditure increased by 24% to £4,369,937 (2021 £3,533,511) due to the restart of face to face membership recruitment, increased volume of commercial activities and the reactivation of project delivery following a year of reduced activity.

Commercial subsidiaries performed well and provided gift aid donations of £241,557 towards the Trust's work.

Restricted net income of £180,926 was mainly due to a generous capital donation towards the acquisition of a new reserve at Trillis. Unrestricted net income of £171,179 was generated by subsidiary profits.

The Trust participates in a defined benefit pension scheme that was closed to all members in 2005. Valuations by a qualified actuary are completed every third year and the Trust's share of the deficit is recalculated and accounted for in the balance sheet liabilities. The latest valuation was completed in April 2020. The accounts are prepared using financial reporting standard FRS 102 as the basis for the valuation at the balance sheet date. This uses factors such as the annual consumer price index (CPI) to calculate the potential increase in costs and a discount rate using the yield of Corporate AA bonds at the last day of the financial year. The resulting balance at 31 March 2022 was a liability of £nil (2021 - £59,166). The movement after in-year contributions has been reflected in the Statement of Financial Activities as Other Recognised Gains.

The investment portfolio is managed by Rathbone Greenbank on behalf of the Trust. The overall value at year end was £676,449. The investment policy is reviewed by the Finance & Remuneration Committee regularly. Investments are managed on a discretionary basis:

- with a low investment risk mandate;
- with a bias to capital rather than revenue returns;
- such that assets can be realised to cash at short notice if required;
- funds are invested following the principles of Socially Responsible Investing (SRI);

## Report of the trustees

#### For the year ended 31 March 2022

- by an advisor and fund manager with proven charities fund management expertise; and
- the Finance & Remuneration Committee will consult with the advisor annually to review investment.

The principles of SRI investing are:

- to invest in companies that make a positive contribution to society;
- use our investor influence to encourage best practice management of social responsibility issues; and
- avoid investing in companies whose activities conflict with the objectives and mission of the Trust performance.

## Financial reserves policy

The Trustees reviewed the financial reserves policy and the target financial reserves during the year. The Trust endeavours to have sufficient financial reserves to meet its contractual and financial obligations, based on the unrestricted salaries and other unrestricted costs, for a period of at least four months in the event of a sudden decline in income. This target amount is covered first by the unrestricted net current assets of the organisation. The balance is included in the long-term investment portfolio.

The unrestricted general funds balance increased to  $\pounds$ 3,280,957 (2021 -  $\pounds$ 2,460,744). Total funds held were  $\pounds$ 7,228,184 (2021 -  $\pounds$ 6,859,278).

The Trustees consider that the charity will continue as a going concern for a period of at least 12 months from the date on which these financial statements are approved for the following reasons:

- The charity holds free reserves, defined as total cash and listed investments, less future forward restricted commitments, of £1,107,922 of which £650,000 are emergency reserves;
- There is a pipeline of funded projects which are sufficiently resourced; and
- A three-year delivery plan was completed and there is a fit for purpose organisation to deliver the plan.

The Trustees therefore consider it appropriate to adopt the going concern basis for the preparation of the accounts, as detailed in note 1(b) to the financial statements.

#### The Trust's approach to fundraising

The Trust is registered with the Fundraising Regulator (FR) which means we have the required complaints log and procedure in place. We also comply, as required by the FR registration, with the Code of Fundraising Practice. We approach fundraising with honesty, openness and are respectful of our supporters.

Our fundraising promise is available on our website. The Trust is committed to ensuring that supporters are happy with the level of communication they receive from us. We ensure that all our activities, and those of the companies who work on our behalf, adhere to best practice guidance, as well as legal requirements. The Trust works with a third-party professional fundraising organisation: South West Wildlife Fundraising Limited (SWWFL), which carries out our face-to-face membership recruitment. Their performance is monitored closely and a Trust staff member sits on the SWWFL Board.

#### Report of the trustees

#### For the year ended 31 March 2022

The Trust has a Safeguarding Children Policy and a Safeguarding Adults Policy. Fundraising activities are regularly reviewed to ensure that we recognise that someone might be vulnerable and take care to protect them. We ensure the frequency of our communications is appropriate, we do not persistently contact anyone, and do not employ high pressure fundraising approaches.

We work hard to ensure that our systems and processes are fully compliant with the data protection legislation.

#### Plans for future periods

The plan for 2022/23 includes:

## Start to deliver Severn Treescapes

We will be starting to deliver a new partnership project, Severn Treescapes. This is an ambitious programme to create a 60-mile corridor of woodland across Gloucestershire, Herefordshire and Worcestershire, from the Lower Wye Valley in the south to the Wyre Forest in the north.

Severn Treescapes will expand, connect, protect and improve the woodland network, demonstrate that woodland creation at a regional scale is compatible with productive agricultural land, and will enhance connections between people, trees and woodland.

#### Expand green infrastructure

We will start delivering the 'Doorstep to Landscape' ambitions in our new Strategy delivering more space for nature close to where people live. We will be working on plans for a Severnside Nature Park in Gloucester and will start delivering the Barton Street Nature Highway project by working with businesses and local residents. We will complete the ERDF Wild Towns project, creating, connecting and enhancing green spaces for wildlife in seven towns across Gloucestershire.

#### Define the strategies for 10 Nature Recovery Zones

We will continue the Nature Recovery Zone (NRZ) approach, growing and strengthening the Trust's biggest and best nature reserves to connect wildlife, drive nature's recovery, and support wildlife to adapt to climate change. This year we will be defining the strategies for 10 NRZs across the county, articulating our vision for the change that we want to see, including consultation with all stakeholders.

#### Rewilding

Working with at least one major landowner on the management of land where natural processes lead, we'll be taking a rewilding approach. New habitat mosaics created through this process will bridge gaps in the core Nature Recovery Network and contribute towards GWT's strategic target of enhancing or creating 10,000 hectares of wildlife-rich habitat by 2030.

#### Structure, governance and management

The Trust is a charitable company limited by guarantee, incorporated on 21 November 1961 and registered as a charity on 28 April 1964.

The Trust was established under a Memorandum of Association which sets out its objects and powers. Those objects are now deemed to be included in the Trust's Articles of Association by virtue of the Companies Act 2006.

#### Report of the trustees

#### For the year ended 31 March 2022

#### Organisational structure

The Board of Trustees consists of the Chair, a Vice-Chair and other members up to a maximum total of 16 members. Currently, there are 13 full members of the Board. The Board may also co-opt members from time to time to gain specialist input or skills.

All newly appointed trustees undergo two half-day induction sessions to introduce them to the constitution, current strategy and delivery plan of the Trust and to brief them on their obligations and responsibilities under charity law. Any interested person may apply to join the Board of Trustees through the advertisements placed in the Trust's magazine and on the Trust's web site. Any interested person must be a member of Gloucestershire Wildlife Trust before he or she will be considered for appointment to the Board. Election of new Board members normally takes place at the AGM.

The Board is supported by three Committees and three Advisory Groups:

Finance & Remuneration Committee Governance & Nominations Committee Performance & Projects Committee Ecological Advisory Group Farming Steering Group Youth Advisory Group (chaired by David Jones) (chaired by Sally Byng) (chaired by David Pepper) (chaired by Anne Goodenough) (chaired by Richard White) (chaired by Jessica Thorne)

Responsibility for day-to-day management of the Trust lies with the Chief Executive who reports to the Board of Trustees. The Chief Executive is supported by three Directors (Director of Finance and Resources, Director for Nature's Recovery and Director of Engagement and Fundraising) who make up the Executive Board. Key decisions about the management of the organisation are taken at the Senior Management Team which meets monthly.

#### **Related parties**

The charity is a member of the federation of Wildlife Trusts (incorporated as the Royal Society of Wildlife Trusts, registered charity number 207238) which acts as an umbrella body working on behalf of all Wildlife Trusts. Nationally, there are 46 Wildlife Trusts in the UK with more than 870,000 members.

Partner Wildlife Trusts can use the Wildlife Trusts' logo and benefit from the resources, best practice and speciality experience of other member Trusts. Membership gives the Trust a national voice and profile, as well as identification with the conservation work of the other Wildlife Trusts. However, each member of the federation remains entirely independent in terms of governance.

Regionally, the Trust is also a member of a charity, the South West Wildlife Trusts, registered charity no. 1094746.

SWWFL (South West Wildlife Fundraising Limited) is a membership recruitment company that is owned by GWT and seven other Wildlife Trusts, predominantly in the South West region. Its primary role is to recruit new members for the eight Trusts.

## Report of the trustees

## For the year ended 31 March 2022

Gloucestershire Wildlife Enterprises (registered company number 09706354) is a wholly owned subsidiary of Gloucestershire Wildlife Trust that manages our catering business, ecology consultancy (trading as 'Wild Service') and other trading activities. A further trading subsidiary, Build with Nature (registered company number 11283471) provides consultancy services for our Building with Nature benchmark. The Trust is planning to separate from Build with Nature early in 2022/23 when a new Charitable Incorporated Organisation is established.

Gloucestershire Wildlife Management Limited (registered company number 02284477) is a wholly owned trading subsidiary that was dormant for the financial year 2021/22.

## Statement of responsibilities of the trustees

The trustees (who are also directors of the charity for the purposes of company law) are responsible for preparing the trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

The trustees are required to prepare financial statements for each financial year, which give a true and fair view of the state of affairs of the charity and the group and the incoming resources and application of resources, including the net income or expenditure, of the charity and the group for the year. In preparing those financial statements the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the applicable Charities SORP;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in operation.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charity and the group and which enable them to ensure that the financial statements comply with the Companies Act 2006. The trustees are also responsible for safeguarding the assets of the charity and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

The trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

## Report of the trustees

## For the year ended 31 March 2022

Members of the charity guarantee to contribute an amount not exceeding £100 to the assets of the charity in the event of winding up. The number of members at 31 March 2022 was 13 (2021: 13). The trustees are members of the charity but this entitles them only to voting rights. The trustees have no beneficial interest in the charity.

## Auditors

Godfrey Wilson Limited were re-appointed as auditors to the charitable group during the year and have expressed their willingness to continue in that capacity.

Approved by the trustees on 21 July 2022 and signed on their behalf by  $D \int Bullock$ 

D Bullock - Chair

#### To the members of

#### **Gloucestershire Wildlife Trust**

## Opinion

We have audited the financial statements of Gloucestershire Wildlife Trust (the 'parent charity') and its subsidiaries (the 'group') for the year ended 31 March 2022 which comprise the consolidated statement of financial activities, consolidated and parent's balance sheets, consolidated statement of cash flows and the related notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102: The Financial Reporting Standard applicable in the UK and the Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the group and parent charity's affairs as at 31 March 2022 and of the group's incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and parent charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

#### Other information

The trustees are responsible for the other information. The other information comprises the information included in the annual report other than the group and parent charity financial statements and our auditor's report thereon. Our opinion on the group and parent charity financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

## To the members of

#### Gloucestershire Wildlife Trust

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## **Opinion on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the trustees' report (incorporating the strategic report and the directors' report) for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the trustees' report (incorporating the strategic report and the directors' report) has been prepared in accordance with applicable legal requirements.

## Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent charity and their environment obtained in the course of the audit, we have not identified material misstatements in the trustees' report (including the strategic report). We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent charity, or returns adequate for our audit have not been received from branches not visited by us;
- the parent charity financial statements are not in agreement with the accounting records and returns;
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not obtained all the information and explanations necessary for the purposes of our audit.

#### Responsibilities of the trustees

As explained more fully in the trustees' responsibilities statement set out in the trustees' report, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

#### To the members of

## **Gloucestershire Wildlife Trust**

## Our responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The procedures we carried out and the extent to which they are capable of detecting irregularities, including fraud, are detailed below:

(1) We obtained an understanding of the legal and regulatory framework that the charity operates in, and assessed the risk of non-compliance with applicable laws and regulations. Throughout the audit, we remained alert to possible indications of non-compliance.

(2) We reviewed the charity's policies and procedures in relation to:

- Identifying, evaluating and complying with laws and regulations, and whether they were aware of any instances of non-compliance;
- Detecting and responding to the risk of fraud, and whether they were aware of any actual, suspected or alleged fraud; and
- Designing and implementing internal controls to mitigate the risk of non-compliance with laws and regulations, including fraud.

(3) We inspected the minutes of trustee meetings.

(4) We enquired about any non-routine communication with regulators and reviewed any reports made to them.

(5) We reviewed the financial statement disclosures and assessed their compliance with applicable laws and regulations.

(6) We performed analytical procedures to identify any unusual or unexpected transactions or balances that may indicate a risk of material fraud or error.

(7) We assessed the risk of fraud through management override of controls and carried out procedures to address this risk. Our procedures included:

- Testing the appropriateness of journal entries;
- Assessing judgements and accounting estimates for potential bias;
- Reviewing related party transactions; and
- Testing transactions that are unusual or outside the normal course of business.

#### To the members of

## **Gloucestershire Wildlife Trust**

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. Irregularities that arise due to fraud can be even harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

#### Use of our report

This report is made solely to the charity's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charity's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### Notes to the financial statements

#### For the year ended 31 March 2022

## 1. Accounting policies

## a) Basis of preparation

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities in preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019) - (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006.

Gloucestershire Wildlife Trust meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy note(s).

## b) Group accounts

These financial statements consolidate the results of the charitable company and its whollyowned (controlled) subsidiaries on a line by line basis. Transactions and balances between the charitable company and its subsidiaries have been eliminated from the consolidated financial statements. Balances between the two companies are disclosed in the notes of the charitable company's balance sheet. A separate statement of financial activities, or income and expenditure account, for the charitable company itself is not presented because the charitable company has taken advantage of the exemptions afforded by section 408 of the Companies Act 2006.

## c) Going concern basis of accounting

The accounts have been prepared on the assumption that the charity is able to continue as a going concern, which the trustees consider appropriate having regard to the current level of unrestricted reserves. The charity holds general funds of £3,280,957 and a further £392,398 in designated funds that can be drawn down if necessary. Cash flow remains healthy, with a yearend cash balance of £1,678,311 and a further £676,449 in investments which could be liquidated if required. The Trust is also in the process of selling the investment property which is expected to result in the realisation of approximately £300k cash. The Trustees consider that the charity has sufficient income potential and cash reserves to continue as a going concern for a period of at least 12 months from the date on which these financial statements are approved.

## d) Funds accounting

Unrestricted funds are available to spend on activities that further any of the purposes of the charity. Designated funds are unrestricted funds of the charity which the trustees have decided at their discretion to set aside to use for a specific purpose. Restricted funds are donations which the donor has specified are to be solely used for particular areas of the charity's work or for specific projects being undertaken by the charity. Endowment funds have been given to the charitable company for a particular purpose to be used in accordance with the wishes of the donor. The capital can generally not be realised.

#### Notes to the financial statements

#### For the year ended 31 March 2022

## 1. Accounting policies (continued)

#### e) Income

Income is recognised when the charity has entitlement to the funds, any performance conditions attached to the item of income have been met, it is probable that the income will be received and the amount can be measured reliably.

Donations, gifts and subscriptions to the charity are included in full in the statement of financial activities when receivable.

Rental income is credited to the statement of financial activities in the period to which it relates.

Income from contracts is recognised according to the stage of completion of the contract.

Grants receivable are accounted for when there is sufficient information to enable the claim to be made or the claim has been made and there is clear indication to suggest the claim will be met.

Where unconditional entitlement to grants receivable is dependent upon fulfilment of conditions within the charity's control, the incoming resources are recognised when there is sufficient evidence that conditions will be met. Where there is uncertainty as to whether the charity can meet such conditions the incoming resource is deferred.

Membership income is recognised over the life of the subscription taking into account the type of membership involved. Life membership subscriptions are deferred and released over 10 years.

For legacies, entitlement is taken as the earlier of the date on which either: the charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the Trust that a distribution will be made, or when a distribution is received from the estate. Receipt of a legacy, in whole or in part, is only considered probable when the amount can be measured reliably and the charity has been notified of the executor's intention to make a distribution. Where legacies have been notified to the charity, or the charity is aware of the granting of probate, and the criteria for income recognition have not been met, then the legacy is treated as a contingent asset and disclosed if material.

## f) Donated services and facilities

Donated professional services and donated facilities are recognised as income when the charity has control over the item, any conditions associated with the donated item have been met, the receipt of economic benefit from the use by the charity of the item, is probable and the economic benefit can be measured reliably.

On receipt, donated professional services and donated facilities are recognised on the basis of the value of the gift to the charity which is the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market; a corresponding amount is then recognised in expenditure in the period of receipt.

#### Notes to the financial statements

#### For the year ended 31 March 2022

## 1. Accounting policies (continued)

## f) Donated services and facilities (continued)

The Trust receives support from a wide variety of volunteers. A report is prepared to estimate the value of volunteer hours according to the Volunteer investment and Value Audit (VIVA) standards, which in 2022 valued these hours at £528,726. However, in accordance with the Charities SORP (FRS 102), general volunteer time is not recognised in the accounts.

## g) Interest receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the charity: this is normally upon notification of the interest paid or payable by the bank.

## h) Expenditure and irrecoverable VAT

Expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party, it is probable that settlement will be required and the amount of the obligation can be measured reliably.

The charitable company is partially exempt. Irrecoverable VAT is allocated to the appropriate cost categories.

The cost of raising funds relate to the costs incurred by the group and charitable company in raising funds for charitable work.

#### i) Allocation of support and governance costs

Support costs are those functions that assist the work of the charity but do not directly undertake charitable activities. Governance costs are associated with constitutional and statutory requirements and include any costs associated with the strategic management of the charity's activities. These costs have been allocated between cost of raising funds and expenditure on charitable activities on the following basis which is an estimate, based on staff time, of the amount attributable to each activity:

|  | 2022  | 2021  |
|--|-------|-------|
| Raising funds - general fundraising          | 8.2%  | 8.4%  |
| Raising funds - cost of trading subsidiaries | 0.0%  | 0.0%  |
| Charitable activities                        | 91.8% | 91.6% |

#### j) Tangible fixed assets

Assets are recorded on a historical cost basis. Depreciation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The depreciation rates in use are as follows:

| Land                           | Not depreciated          |
|--------------------------------|--------------------------|
| Land and property improvements | 1.5% - 25% straight line |
| Motor vehicles                 | 25% straight line        |
| Equipment                      | 25% straight line        |

Items of equipment are capitalised where the purchase price exceeds £1,000. Assets are reviewed for impairment if circumstances indicate their carrying value may exceed their net realisable value and value in use. Assets under construction are not depreciated until brought in to use.

#### Notes to the financial statements

#### For the year ended 31 March 2022

#### 1. Accounting policies (continued)

#### k) Investments

Investments held at the year end are valued at the current market value at that date. Investment income from dividends is included in incoming resources while realised and unrealised losses and gains on investments are shown separately on the statement of financial activities (SOFA). Realised gains and losses are calculated on investment disposals during the year as the difference between the opening market value and the proceeds received on sale. Unrealised gains and losses are calculated on investment holdings at the year end as the difference between the closing market value and the opening market value or purchase value during the year. Investments in subsidiaries are measured at cost less impairment.

#### I) Investment properties

Investment properties are included in the balance sheet at their fair value (note 13). Investment properties are formally re-valued every 5 years with interim valuations conducted on an annual basis between the formal valuations. The aggregate surplus or deficit is included as an unrealised gain or loss within the appropriate fund.

#### m) Stocks and work in progress

Stock is included at the lower of cost or net realisable value. Work in progress is recognised where contractual obligations are performed gradually over time and is valued at the stage of contract completion at the reporting date.

#### n) Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

#### o) Cash at bank and in hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

#### p) Creditors

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

## q) Conduit funding

Conduit funds are monies received for third parties and do not belong to the charity. The incoming funds and outgoing payments are excluded from the Statement of Financial Activities. Any conduit funds in hand at the year end are shown as creditors in the accounts.

#### r) Financial instruments

The trust only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently recognised at amortised cost using the effective interest method.

#### Notes to the financial statements

#### For the year ended 31 March 2022

#### 1. Accounting policies (continued)

#### s) Pension costs (defined contribution)

The charitable company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the charitable company in an independently administered fund. The pension cost charge represents contributions payable under the scheme by the charitable company to the fund. The charitable company has no liability under the scheme other than for the payment of those contributions.

#### t) Pension costs (defined benefit)

The charitable company participates in a defined benefit pension scheme. The scheme is a hybrid, multi-employer pension scheme. In 2005 the scheme was closed to new and existing members. The provision for the Trust's share in the deficit has been released based on the actuarial valuation for the year ended 31 March 2022 which values the fund in a surplus position.

#### u) Finance and operating leases

Rentals payable under operating leases are charged to the SOFA over the period in which the cost is incurred. The trust has no finance leases.

#### v) Accounting estimates and key judgements

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key sources of estimation or uncertainty that have a significant effect on the amounts recognised in the financial statements include depreciation (see note 1j), the valuation of the defined benefit pension deficit provision (see note 1t), and the valuation of investment properties (see note 1I).

## 6. Government grants

The charity receives government grants, defined as funding from the European Union, Local Authorities and Councils, the Environment Agency, Forestry England, DEFRA, National Lottery, NHS and Gloucestershire Police and Crime Commissioners, to fund charitable activities. The total value of such grants in the period ending 31 March 2022 was £1,335,757 (2021: £1,522,727). There are no unfulfilled conditions or contingencies attaching to these grants.

One employee earned between £70,000 and £80,000 in the year (2021: 1, £70,000 - £80,000). The key management personnel of the charity comprise the Chief Executive and Senior Management Team. The total remuneration, including employer NI and pension contributions, of the charity's key management personnel was £434,695 (2021: £395,178).

Included in salaries and wages above are total termination and redundancy payments of £nil (2021: £41,103).

Staff numbers were as follows:

|                          | 2022<br>No. | 2021<br>No. |
|--------------------------|-------------|-------------|
| Average staff head count | 97.5        | 87.0        |

## 10. Taxation

The charity is exempt from corporation tax as all its income is charitable and is applied for charitable purposes. The charity's trading subsidiary, Gloucestershire Wildlife Enterprises Limited has gift aided their available profits to the charity. The other trading subsidiary, Build with Nature Limited, has not gift aided their available profits to the charity and has accounted for the associated tax charge.

| Loans due in more than one year | 1,849,326 | 447,329 | 1,849,326   | 447,329 |

In November 2019, Gloucestershire Wildlife Trust agreed loan finance for £550,000 from the Council of the City of Gloucester. It is repayable over 10 years at an interest rate of 5.68%, secured via a fixed charge over land and property at Robinswood Hill Country Park.

In July 2021, Gloucestershire Wildlife Trust agreed loan finance for £1,449,350 from Natwest bank. It is repayable in 25 years. Interest is charged at a rate of 2.57% above base rate. The loan is secured via a fixed charge over Trillis, Far Oakridge, Stroud, Gloucestershire and its associated assets.

| Financial assets measured at fair value      | 2,482,799        | 659,112 | 2,482,799   | 659,312 |  |
| Financial liabilities measured at fair value | <u> </u>         | 59,166  |             | 59,166  |  |

Financial assets measured at fair value comprise listed investments. Financial liabilities measured at fair value comprise pension provisions.

## Notes to the financial statements

#### For the year ended 31 March 2022

#### 22. Pension provision

The charitable company participates in a defined benefit pension scheme. The scheme is a hybrid, multiemployer pension scheme. In 2005 the scheme was closed to new and existing members. The charitable company is currently paying employer contributions at a rate of 16% of pensionable salaries to contribute to the scheme.

Provision had been made for the Trust's share of the deficit, calculated based on an actuarial valuation of Gloucestershire Wildlife Trust's net share of the total pension scheme deficit. The gain or loss arising on the revalued provision is recognised as an 'other gain or loss' in the statement of financial activities. The scheme moved into surplus position at 31 March 2022 therefore the provision has been released. A reconciliation follows:

\*\*Renamed from "Wilder landscapes and farming"

Transfers between funds

The majority of transfers between funds relate to restricted capital expenditure, where the restriction has been discharged on purchase of the asset. The remainder relates to transfers between restricted funds and the correction of erroneous balances.

Notes to the financial statements

#### For the year ended 31 March 2022

## 24. Movements in funds (continued) **Purposes of restricted funds** Engagement and Learning Our work with schools and community projects was restarted following the pandemic and preparation took place to engage younger people through Restore Our Future and for education at Greystones Farm. We completed the Our Bright Future programme. We continue to work with communities on nature highways, enhancing green community spaces in urban areas, and installing and educating about rain gardens. We also work with the NHS to help busy carers unwind in natural surroundings. At Robinswood Hill we engaged with the local community to celebrate the heritage of the hill and to provide accessible routes and amenities at this green flag site. Evidence, connected landscapes The record centre provides data for a wide range of local authority and citizen science and other ecological projects. We continue to monitor the pine martens re-introduced last year into the Forest of Dean with Forestry England and completed a second translocation. We continue to map the habitats of Gloucestershire, are ground-truthing results with the help of volunteers, and and tracked our carbon footprint so that we can continue to find ways to reduce this at our gateway sites and in our ways of working. Nature's recovery and farming We provided advice on embedding the DEFRA programme for land management payments. Wildflower meadows and natural green spaces are being provided within towns across Gloucestershire.

spaces are being provided within towns across Gloucestershire. Land was purchased to expand a priority landscape in the Golden Valley. There is extensive wetland restoration work and natural flood management taking place in the Severn Vale including Coombe Hill, Ashleworth and Tuffley and restoration work with Stroud District Council at the Stroudwater Canal. A trainee programme was started to help develop a young generation in conservation work.

Partnership working We continued to work with partners such as the Severn Vale Catchment Partnership, Local Nature Partnership, and to support our subsidiary Build with Nature to develop strategy and deliver conservation projects across the county.

# Visitor engagement We have a visitor centre and learning environment at Crickley Hill, Greystones Farm and Robinswood Hill.

## Purposes of endowment funds

Endowment funds represent those fixed assets that must be held permanently by a charity. In the Trust's case, the fixed assets relate to nature reserves either purchased by the Trust or transferred from Gloucestershire County Council and the Nature Centre at Robinswood Hill, Gloucester. Additions to the reserves and Nature Centre are added to the fund and depreciation on those assets is charged against the fund.

Notes to the financial statements

For the year ended 31 March 2022

## 24. Movements in funds (continued) Purposes of designated funds

Pension provision adjustment This designation reflects the reduction in value of the defined benefit pension fund liability using FRS 102, as determined by a qualified independent actuary in the year ended 31 March 2020. It was decided to designate funds released via the gain on revaluation in order to distinguish these funds from ordinary operational funding and to offset any future increases in the required provision.

Capital improvements and repairs Designated for future capital improvements and repairs (storage solutions and facility improvements).

#### Notes to the financial statements

#### For the year ended 31 March 2022

#### 25. Related party transactions

During the year, the charity made the following related party transactions:

#### Gloucestershire Wildlife Enterprises Ltd (wholly owned subsidiary of GWT)

Sales and purchases between the entities are not disclosed as the subsidiary is wholly owned. Profits gift aided to charity from the company - £235,557 (2021: £155,715). Amount due from the company at 31 March 2022 - £53,631 (2021: 6,250).

## Build with Nature Ltd (wholly owned subsidiary of GWT)

Sales and purchases between the entities are not disclosed as the subsidiary is wholly owned. Profits gift aided to charity from the company - £6,000 (2021: £nil). Amount due to the company at 31 March 2022 - £nil (2021: £212 due to the company).

## The Gloucestershire Naturalists' Society (Andrew Bluett is a trustee of both organisations) Income - £1,900 (2021: £1,900).

**The Vincent Wildlife Trust (David Bullock, trustee, is a director and Amy Coyte, trustee, is Chair)** Purchases - £50,200 (2021: £16,461) for conservation work.

## 26. Operating leases

The charity had operating leases at the year end with total future minimum lease payments as follows:

| Land                | 2022<br>£ | 2021<br>£ |
|---------------------|-----------|-----------|
| Amount falling due: | ~         | ~         |
| Within 1 year       | 131       | 822       |
| Within 1 - 5 years  | 524       | 524       |
| After 5 years       | 8,388     | 8,520     |
| Plant and equipment | 2022      | 2021      |
| Amount falling due: | £         | £         |
| Within 1 year       | 2,612     | 2,612     |
| Within 1 - 5 years  | 4,765     | 8,644     |

## Notes to the financial statements

## 27. Conduit funding

|                                 | The group and charity |       |  |
|---------------------------------|-----------------------|-------|--|
|                                 | 2022                  |       |  |
|                                 | £                     | £     |  |
| Balance at start of year        | 5,837                 | 5,837 |  |
| Funding received during year    | 83,725                | -     |  |
| Funding distributed during year | (56,980)              |       |  |
| Balance at end of year          | 32,582                | 5,837 |  |

Conduit funds are monies received for third parties and do not belong to the charity. The charity passes them through the accounts under a unique project code as a service to other charities to help the charitable purposes, but does not claim Gift Aid nor has control over their use. The receipts and payments referred to above have been excluded from the Statement of Financial Activities. Conduit funding is held on behalf of Local Nature Partnership Gloucestershire (an unincorporated partnership) and Maggie's (SC024414).

## 28. Changes in net debt

| Total   | 1,106,990               | 123,992         | (1,449,350)              |                                      | (218,368)                |

## 29. Contingent assets

Before the year end probate had been granted on a legacy for which GWT is a beneficiary. The charity expects to received in the region of £300,000 during the 2022/23 financial year. It has not been recognised in income because the amount cannot be reliably measured.

## **30.** Post balance sheet events

In the post year end period, it is intended that the activities and assets of the wholly-owned trading subsidiary Build with Nature will be transferred to a new, independent charity of the same name. Income and expenditure relating to Build with Nature will cease being recognised within the group accounts at the point of transfer, which is expected to be within 2022/23.
