Job description

Gloucestershire
Wildlife Trust

Introducing Gloucestershire Wildlife Trust

We are Gloucestershire Wildlife Trust – the largest membership organisation in the county dedicated to local wildlife. We aim to play a central role in tackling the ecological and climate emergencies in Gloucestershire, working closely with local communities and our partners.

This needs 30% of the land supporting nature's recovery by 2030 and unlocking the potential of nature-based solutions to mitigate and adapt to the impacts of climate change. By working in partnership with farmers and landowners, we aim to create ten Nature Recovery Zones where wildlife with thrive alongside food production.

These will cover over 60,000 hectares, including increasing our own nature reserves from 1,100 to 1,700 hectares. Alongside this we will collaborate on large scale cross-boundary ecosystem restoration projects and smaller scale wildlife enhancement and nature highways in urban neighbourhoods. We will inspire communities to influence decision makers and drive forward change in their own neighbourhoods.

Nature's recovery depends on the Gloucestershire's people. 28,000 members in Gloucestershire support our work, with hundreds regularly volunteering time and commitment. We want to make nature more inclusive by reaching 1 in 4 people and ensuring more people have access to nature on their doorstep. We want to empower at least 20,000 people to take meaningful action for nature, particularly by harnessing the energy of our volunteers and young people
